1. Introduction

Company Information

Fanisko is a Sports Metaverse company helping sports fans, organizations and brands unlock new premium revenue with innovative fan engagement, metaverse and digital transformation solutions.

Our platform and solutions help sports organizations engage, retain, and monetize fans. We have partnered with several global sports organizations to bring immersive experiences to fans. We have engaged several million fans globally and have increased the fan base for some of our partners by at least 20%. Our platform features and capabilities include Personalized content feed, Gamification, Augmented Reality (AR), Virtual Reality (VR), Loyalty program, Metaverse experiences, NFTs, Blockchain, and Data Analytics.

Mission

To enable sports & entertainment brands to convert casual fans into digital diehards, retain existing fans through mixed reality experiences, and create new revenue opportunities through digital sponsor activations.

Who we are

- A team of 50+ passionate sports fans and 9+ years of sports tech experience
- Experts in Digital Transformation, Data Analytics and Fan Engagement
- Victorious at the *International Cricket Council (ICC) Global Hackathon - Apr 2023: Triumph over 9,550 teams from 113 countries!*

Advisory & Leadership team has represented

Trusted by premier sports organizations around the world

Awards & Recognitions

- [ICC & NIUM Global Hackathon](#) - Winner in Global International Cricket Hackathon in a competition of over 12,500 participants from 113 countries and 9550 teams.
- **Notable Sports/eSports Company in Chicago** - 2022 Recognized by Chicago Deputy Mayor office & World Business Chicago and invited for Business Roundtable
- [Metaverse Insider](#) - 2022 Top 100 AR Companies powering Metaverse
- [Best Startups](#) - 2022 Recognized as one of the top 101 innovative sports startups in Illinois

OWN the **NFTs**, **PLAY** in **METAVVERSE** & **WIN** the **GAME**,

World's first Metaverse Baseball game with NFTs that allows fans to own teams, coaches, players, stadiums, and lot more

2. What is Fanisko Metaverse gaming?

The Fanisko Metaverse League combines baseball games and players from several worlds together on a single field, integrating the greatest characteristics and components of blockchain technology and NFTs.

Fanisko Metaverse League is not just a game, but rather a doorway to an exclusive baseball player community from across the universe.

We are establishing our very own "Metaverse," where members of the community will be able to buy the listed NFTs and participate in several top leagues, and compete against the greatest in the business throughout time.

Fanisko Metaverse League presently has a strategy and launch timeline for three unique blockchain games over the next several months. Fans will have the opportunity to control the whole franchise or league and purchase uncommon items and components.

3. Three Fundamental Elements of Fanisko Metaverse Gaming

Grow While Gaming

Each game we release will be built on the previous one to produce a diverse range of amazing gameplay structures and distinctive characters that progress on a continuous basis to different levels and talents.

Own and Gain

With each game, your NFT points and value will increase making you an elite game player and a super fan

Get to say

The more powerful you get, the more authority you have over the games and gameplay; you may lend your player to others and gain control over other players.

4. Our Perception

We feel that the future of online gaming may be summarized as follows:

- 1- NFT
- 2- 2D Metaverse
- 3- XR Metaverse

So, we take the above components and combine them with the different sports to give the user the “Metaverse Madness”. The unique game characters will be adored and appreciated all over the world.

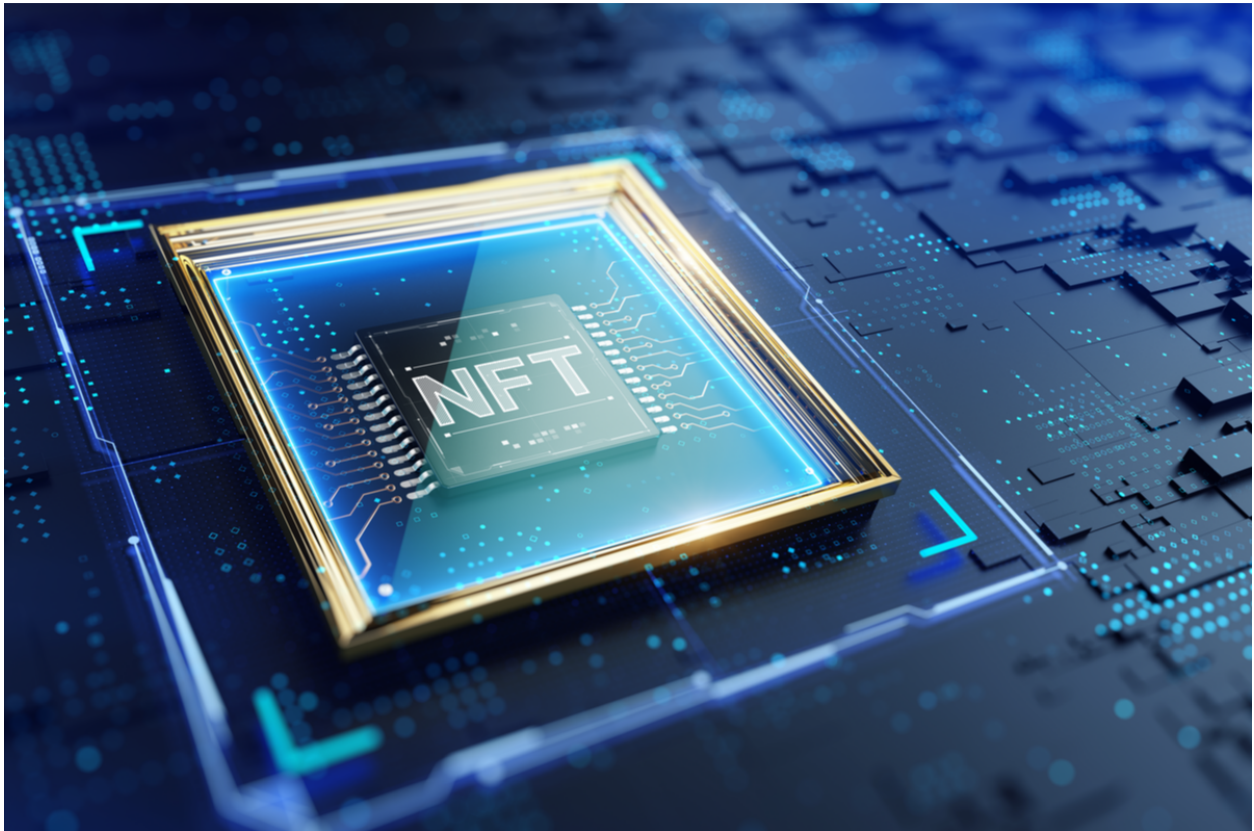

5. Why us & Why now & Why NFT

We have built a successful fan engagement sports company and have worked with esteemed sports brands such as Sportradar, Dodgers Nation, FIDE, Tech Mahindra, and others. With a strong Web 2.0 foundation built, we are moving towards building a robust metaverse (Web 3.0) platform that will unify gaming, AR/VR, Blockchain, Crypto, and NFT to bring a unique

experience to fans so it drives multiple revenue streams for fans, sports organizations, sponsor brands, and the company.

Blockchain games powered by NFTs have grown exponentially in recent years, pushed by NFT proliferation. In recent months, in-game NFTs have generated billions of dollars in transactions. NFT games allow gamers to earn money as they play. The play and earn genre is one of the most significant driving forces behind NFT games, with gamers making P2E games their full-time vocation. The P2E concept in blockchain gaming is simple. Players must play the game and complete game mechanics or particular tasks to be awarded. These are frequently NFTs or tokens. Users may collect these digital things and then trade or sell them in virtual marketplaces found within the game. While playing their favorite games, players may win rewards. However, obtaining rewards when playing NFT games is not as simple as many people imagine. To make the most of their playing time, gamers must first select the appropriate game and then plan their playtime.

6. Whitepaper

As this is the beginning of Fanisko's Metaverse & NFT adventure, this whitepaper will develop over time as we progress. In truth, this should be labeled a "luminous" document, but our

experts disapproved, so it will remain a “Whitepaper.” This Whitepaper explains where we currently stand on the NFT and Metaverse platform development and the corresponding timelines. This Whitepaper also gives a glimpse of our roadmap and what’s in store for our community of die-hard fans.

7. Overview

Our stance with Fanisko’s NFTs is that the fans should be able to own NFT assets that will carry value. Our NFTs will be used in Fanisko Metaverse League thereby providing our fans an avenue to earn. This also gives our community additional peace of mind in knowing that the time they spend playing games may be turned into an investment as their playable assets improve in value once they start playing the game;. These assets can then be exchanged or sold on Fanisko’s marketplace.

8. StoryLine- Back story

You are one of the billions of sports fans on our planet earth. Our earth orbits the sun in the solar system. The sun is one star among the billions in the milky way galaxy. Our milky way galaxy is one among the billions of galaxies in our universe. You are unique in the Universe! Our Metaverse story happens in The PANCHIA Space, an imaginary spiral galaxy that is 5 million light years away from earth. Our explorers have discovered planets in that galaxy where inhabitants renounced violence after 1000’s years of bloodshed and loss of lives to play a game of rigid wood and mighty ball, that we call “Baseball” on Earth.

The Panchia is the brightest external space visible from the earth's southern hemisphere. In a dark sky, it's seen as a smudge of distant light bigger than a full moon.

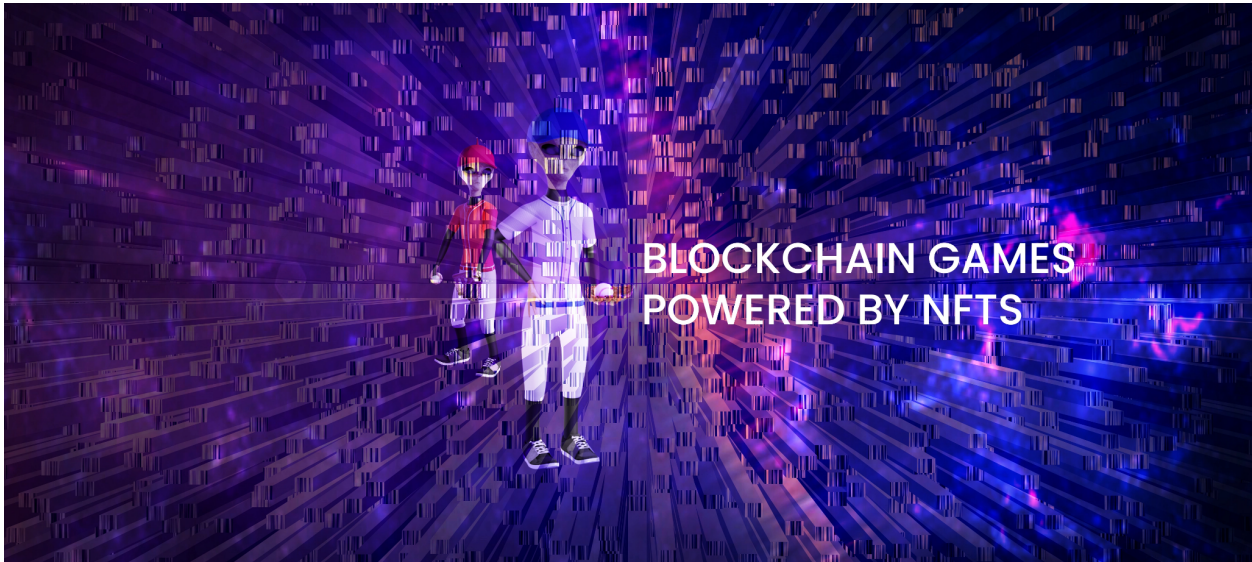

The multiple planets discovered in the Panchia Space are uniquely made up of Water, Fire, Thunder, Acid, and Grass. Aside from these, explorers have also identified one common resource called Zoharium present on the planets in the Panchia Space. The inhabitants leverage Zoharium as a catalyst to power their abilities. But Zoharium's usage is limited and controlled by the royal lineage. However, over the years the planet's inhabitants have developed special skills and abilities to survive and adapt to the changing geopolitical and natural environment.

In the Panchia Space, interplanetary travel happens through Zaaloop – a teleporting pathway that connects all the six worlds. The control of Zaaloop has led to great wars and bloodshed in the history of the Panchia Space. As civilization progressed, the planet's elders renounced violence and armed struggle in favor of the sport of Baseball to resolve the control of Zaaloop and supreme authority of the six worlds. The elders also agreed to create an elite team called Vothrak Khalasar which consists of the finest, mightiest, ferocious and herculean warriors from all the planets to manage Zaaloop and protect the six worlds from external threat and invasion. This has helped restore peace and happiness in all the six worlds in the Panchia Space and inhabitants have embraced sports as a matter of pride in their everyday lives. Ever since the Baseball championship is played every year with plenty of fanfare and the winner gets honored at the Fanisko Coliseum, the biggest edifice in all six worlds.

9. Game structure – An Overview

Fanisko has examined the market, investigated gaming options, and put together three games as a part of the initial rollout and; as confirmed by prominent gaming experts. Are we boasting that our game play will be flawless? Of course not, but it's a lot better than the vast majority of game concepts that are out in the market.

1. Game #1:

Pick the right players for the following

- *Head to Head Game*
- *3 x 3 Basic-Level Game*
- *5 x 5 Mid-Level Game*
- *7 x 7 Ultra-Level Game*
- *9 x 9 Supreme-Level Game*

Different players have different strengths

Certain players have stronger qualities than others and perform according to their strengths in a game. So find and collect the ideal players for your team.

Purchase RARE players to bolster your team

Purchase players on the basis of rarity to bolster your squad, reinforce any possible weaknesses and establish a promotion-worthy squad

2. Game #2:

Effectively manage your team

- You may also buy and design your own squad. The entire team composition will be twenty-six, with nine being deployed in the game to evaluate their abilities.
- You will compete in regular games with your NFT squad. Rotate your team to avoid burnout and injuries within your club.

Conquer the world with your own Baseball Club

- Compete in your league, advance in cup tournaments, and make incredible signings for your club to create your own history.

Each Planet has its own unique fanbase

- Your planets' fans have unique characteristics that influence how they play in the games.

Win games, rank high, and get promoted

- Finishing in the top spot earns you a shot at promotion, as well as tokens, elite players, and club enhancements.

3. Game #3:

The new game will be launched on the basis of AR, VR, and AR glass technologies Here fans and teams will feel more immersed and involved in the true metaverse

10. NFT - Collections

This is the first ever NFT baseball game played in the metaverse between powerful alien species. They play to demonstrate the strength and might of their planets.

These are not ordinary collections; they are something more!

A fan like you created 156 distinct NFT baseball players. Each NFT player has an individual rarity depending on the several "traits" that compensate its composition.

1. Original Collections

- Rookies
- Outlaw
- Enforcer
- Immortal

2. Future Collections:

As indicated before, we will not stop innovating; more avatars, heroes, personalities, and games will be introduced in the future.

11. Welcome to Metaverse Baseball League (MBL)!

- *Gaming you never Imagined.*

12. League Vision

Metaverse Baseball League (MBL) is the world's first Web3 NFT game for Baseball fans, peppy gamers, and NFT dreamers. It is designed to replicate the intensity of real-world baseball gaming in the Metaverse. Read more about Fanisko Metaverse – [Panchi Space](#)

MBL, like any other league, is intended to be profoundly immersive, intellectually engaging, creatively advanced, and entertainingly emotive – with the community at the core of its approach.

Our gaming strategy is intelligently incorporated into MBL's four primary factors: engaging entertainment, inclusive game skills, community economics, and complete fan involvement. We will accomplish each of these four pillars as we proceed in the evolution of MBL games, its development, and community construction through collective engagement.

As fellow gamers, let us work together to create an environment where we have fun while earning money. MBL is our first step... With more to follow in the next few years.

13. Baseball

Baseball is a bat-and-ball sport played between two teams of nine players each, taking turns batting and fielding with the goal to score the most runs. If the game is tied at the end of the regulation time, it may go into an “extra innings” until one side scores more runs than the other or other conditions (such as a time restriction) are reached. In baseball, a “run” is scored when a player of one team advances around a series of four stations known as “bases”: first base, second base, third base, and home base (also commonly referred to as home plate).

The goal of the game is to score runs by having a player move from first base to home base. Each time a player completes a full circle of the bases, his or her team receives one run. In baseball, no further scores are attainable until a game is forfeited because one side is unable or unwilling to complete the game. In such a circumstance, the side that did not forfeit is proclaimed the winner with the number of runs equal to the number of innings played. Because professional baseball games are normally nine innings long, such a score would likely be 9-0.

In a baseball game, there are nine defensive positions:

- **Pitcher:** The person who delivers the baseball to the batter.
- **Catcher:** The person who stands at home plate behind the batter and who catches any ball not hit by the batter.

- **First, second, and third basemen:** The three individuals who play at or near each of the three bases.
- **Shortstop:** The person who plays in a position midway between the second baseman and the third baseman.
- **Left, right, and center outfielders:** The three individuals who play in the “outfield,” the region outside the baseball diamond, toward the left, right, and center of the playing field, respectively.

14. Blockchain Game

Blockchain technology, which powers cryptocurrencies such as Bitcoin and Ethereum, is a distributed record of transactions that is maintained by a network of computers. Because the records must be the same across the whole network, the decentralized approach makes it difficult for anybody to change the transaction information.

Because most gaming systems are centralized, gamers may only spend their game winnings – such as XP or in-game cash – in one game. Blockchain games, on the other hand, feature a decentralized paradigm, which means that gamers own their game data and may use it in other blockchain games.

15. Gaming Overview

The Metaverse Baseball League (MBL) is a blockchain-powered baseball game that takes Fan Engagement and Gaming to the next level. The MBL Player NFTs and in-game assets NFTs are at the center of the game's ecosystem, which users may use to:

- Play Head 2 Head and other types of games
- Become a vital element of the game's ecosystem
- Take control of in-game assets and trade NFTs on the marketplace.

As the game matures, there will be more opportunities for fans to engage-to-earn and play to earn in the Metaverse.

16. Player NFTs

Every player in a real-world baseball game is unique, exceptional, and precious. The ideal approach to constructing our game is to include this originality into MBL and use NFTs as one of the core elements. MBL is concentrated in NFTs. In the game, there is a wide variety of NFTs for players and assets.

The Metaverse Baseball League (MBL) environment currently has 26,200 players NFTs; this number will grow when new planets and players are released.

- Planet 1 – Tozzfreak – 13,100
- Planet 2 – Wogzot – 13,100

1. MBL Pitchers

Immortal

- Mattix – Relief Pitcher
- Tashkith – Starting Pitcher

Enforcer

- Ting De – Starting Pitcher
- Shaqen – Relief Pitcher
- Dojvro – Starting Pitcher
- Kelzid – Starting Pitcher
- Elxoz – Starting Pitcher

- Sewar – Starting Pitcher
- Yemblow – Relief Pitcher
- Jegzeen – Relief Pitcher

Outlaw

- Vibeez – Relief Pitcher
- Cluvan – Relief Pitcher
- Salox – Starting Pitcher
- Gulake – Relief Pitcher
- Torik – Starting Pitcher
- Oslov – Starting Pitcher
- Ayatlen – Starting Pitcher
- Lovids – Starting Pitcher
- Yoksov – Relief Pitcher
- Pushtar – Relief Pitcher
- Archyera – Relief Pitcher
- Cickon – Relief Pitcher

Rookie

- Bixten – Relief Pitcher
- Kirkof – Starting Pitcher
- Gihet – Relief Pitcher
- Vzard – Relief Pitcher

2. MBL Batters

Immortal

- Volder – First Baseman
- Otfik – Right Fielder

Enforcer

- Ashter – Right Fielder
- Menzo – First Baseman

Outlaw

- Cearsen – Shortstop
- Redolk – Third Baseman

- Rokser – Second Baseman
- Grenden – Shortstop
- Lovichk – Right Fielder
- Nicold – Left Fielder

Rookie

- Jekenof – Shortstop
- Tomdro – Third Baseman
- Crekren – Designated Hitter
- Zorkev – Third Baseman
- Bealder – Right Fielder
- Delkaer – Right Fielder
- Osdek – Shortstop
- Altsen – Center Fielder
- Forxtink – Third Baseman
- Wikon – Second Baseman
- Fikken – Designated Hitter
- Hernen – Second Baseman

3. MBL Catchers

Enforcer

- Hoklov – Catcher
- Melodven – Catcher

Outlaw

- Suzik – Catcher
- Bekzon – Catcher

17. MBL Player Rarity and Categories

1. ROOKIE

These Baseball heroes are the type of players that begin at the bottom but have the capacity to advance. When it counts, these player NFTs deliver. These NFTs, when combined with your ability and timing, will have a significant influence in the Metaverse Baseball League!

Batters:

Player name	Available NFTs	Position	Planet Name
Jekenof	800	Shortstop	Tozzfreak
Tomdro	800	Third Baseman	Tozzfreak
Crekren	800	Designated Hitter	Tozzfreak
Zorkev	800	Third Baseman	Tozzfreak
Bealder	800	Right Fielder	Tozzfreak
Delkaer	800	Right Fielder	Tozzfreak
Osdek	800	Shortstop	Woggzot
Altsen	800	Center Fielder	Woggzot
Forxtink	800	Third Baseman	Woggzot
Wikon	800	Second Baseman	Woggzot
Fikken	800	Designated Hitter	Woggzot
Hernen	800	Second Baseman	Woggzot

Pitcher:

Gihet	800	Relief Pitcher	Woggzot
Vzard	800	Relief Pitcher	Woggzot

Catcher:

Player name	Available NFTs	Specialization	Planet Name
NA	NA	NA	NA

2. Outlaw

These NFT players are real treasures. You won't be able to discover them easily, and when you do, they'll be incredibly exceptional in their delivery. When paired with your ability, team, and timing, these Outlaw player NFTs may have a significant influence in a game.

Batters:

Player name	Available NFTs	Position	Planet Name
Cearsen	500	Shortstop	Tozzfreak
Redolk	500	Third Baseman	Tozzfreak
Rokser	500	Second Baseman	Tozzfreak
Grenden	500	Shortstop	Woggzot
Lovichk	500	Right Fielder	Woggzot
Nicold	500	Left Fielder	Woggzot

Pitcher:

Player name	Available NFTs	Position	Planet Name
Vibeez	500	Relief Pitcher	Tozzfreak

Cluvan	500	Relief Pitcher	Tozzfreak
Salox	500	Starting Pitcher	Tozzfreak
Gulake	500	Relief Pitcher	Tozzfreak
Torik	500	Starting Pitcher	Tozzfreak
Oslov	500	Starting Pitcher	Tozzfreak
Ayatlen	500	Starting Pitcher	Woggzot
Lovids	500	Starting Pitcher	Woggzot
Yoksov	500	Relief Pitcher	Woggzot
Pushtar	500	Relief Pitcher	Woggzot

Cickon	500	Relief Pitcher	Woggzot

Catcher:

Player name	Available NFTs	Position	Planet Name
Bekzon	500	Catcher	Tozzfreak
Suzik	500	Catcher	Woggzot

3. Enforcer

These NFTs are the true Enforcers in every sense, as the name implies, in terms of the power they pack and the intensity with which they complement and improve your gaming. These amazing NFTs are difficult to come by, and if you have one, you will almost certainly make it big in the Metaverse Baseball League.

Batters:

Player name	Available NFTs	Position	Planet Name
Ashter	250	Right Fielder	Tozzfreak
Menzo	250	First Baseman	Woggzot

Pitcher:

Player name	Available NFTs	Position	Planet Name
Ting De	250	Starting Pitcher	Tozzfreak
Shaqen	250	Relief Pitcher	Tozzfreak
Djovro	250	Starting Pitcher	Tozzfreak
Kelzid	250	Starting Pitcher	Tozzfreak
Elxoz	250	Starting Pitcher	Woggzot
Sewar	250	Starting Pitcher	Woggzot
Yemblow	250	Relief Pitcher	Woggzot
Jegzeen	250	Relief Pitcher	Woggzot

Catcher:

Player name	Available NFTs	Position	Planet Name
Hoklov	250	Catcher	Tozzfreak
Melodveen	250	Catcher	Woggzot

4. Immortal

The phrase "Immortal" suits the character of these NFTs perfectly - legendary! The Immortal NFT is meant to improve your MBL gaming by adding power, skill, and playability! Having an Immortal NFT offers you an advantage over any other player that has a comparable skill set but on a lower category NFT. These are the most difficult to come by.

Batters:

Player name	Available NFTs	Position	Planet Name
Volder	100	First Baseman	Tozzfreak
Otfik	100	Right Fielder	Woggzot

Pitcher:

Player name	Available NFTs	Position	Planet
Mattix	100	Relief Pitcher	Tozzfreak
Tashkith	100	Starting Pitcher	Woggzot

18. Baseball Stadiums

The stadium also serves as valuable and profitable real estate for the baseball environment. We will provide special baseball stadium NFTs in the future to integrate into MBL!
